

Cariology Group
International Association for Dental Research
Winter, 2015, Newsletter

Message from the President

Dear Cariology Research Group members,

Again, I want to thank you for placing your trust on me and the rest of the officers to lead the Cariology Research Group during part of 2014 and 2015. We have been working hard to continue enhancing and supporting research in cariology and dental erosion.

After a very successful annual meeting in Cape Town in 2014, we are getting ready for the next meeting at Boston in a few weeks. We are predicting a wonderful meeting with lots of exciting research being presented and plenty of opportunities to create, renew or reinvigorate research collaborations across laboratories, countries, and disciplines. This could be the IADR meeting with the largest attendance to date, so our expectations are high.

Cariology and dental erosion research continues to receive great attention by numerous institutions and scientists from around the world. At this year's annual meeting there will be 12 oral sessions and 6 poster sessions presenting numerous papers in these areas of research (69 oral presentations, 290 posters). Additionally, there will be five symposia, a keynote address lecture, and a lunch and learning. Furthermore, on Sunday there will be an industry-sponsored symposium on high concentration fluorides and boosters that I am sure will be of much interest for many of our members. As you can see, it will be an exciting and very busy meeting for our areas of research interest.

Reviewing and selecting the abstracts to be presented was a tremendous job this year. I want to sincerely thank the numerous abstract reviewers and in particular the lead reviewers, our group program chair, Dr. Anderson Hara, and our symposium and lunch and learn organizers, Dr. E. Angeles Martinez-Mier and Dr. Marcelle Nascimento.

This year we had numerous outstanding applications for the IADR Basil Bibby Young Investigator Award making the selection extremely difficult. Unfortunately, only one person can receive the award. The name of this outstanding

young researcher will be announced at our business meeting in Boston (Thursday March 12 from 5:00-6:00 pm in Room 109, Hynes Convention Center). We are also pleased with the level of interest in the new Travel Award. This year we had several applications for the IADR Cariology Research Group Travel Award (last year we did not have any) and the awardee will also be announced at the business meeting. I take this opportunity to thank Unilever and Colgate-Palmolive for their financial support of these two awards.

In our continuous effort to enhance quality of research in the field of cariology, erosion and related subjects, we have created a new award, The Cariology Research Group Science Award. The proposal for this award was open for discussion during the fall of 2014 and approved by a large majority of the members in December. All members will be able to compete for this award next year.

We continue to update regularly our Facebook and website pages. Do not hesitate to contact us for questions or suggestions in relation to these pages. I want to take this opportunity to thank our secretary, Dr. Frank Lippert, for his creativity and work ethics supporting these pages.

I sincerely hope to see most of you in Boston; it will be a great meeting!
Carlos González-Cabezas

President
IADR Cariology Research Group

Message from the Secretary

Dear Colleagues,

As a change to how we usually publish our newsletter (i.e. after a conference), we have decided to share our newsletter with you ahead of the IADR 2015 meeting. This allows us to draw your attention to several group-sponsored events and other activities that may be of interest to you. Please scroll down to the next pages to find our IADR 2015 preview.

We have thoroughly enjoyed attending IADR 2014 in Cape Town, although the choice of location had a detrimental effect on overall attendance. Nonetheless, our group's sessions were well attended including the keynote address given by Dr. Ana Carolina Magalhães.

We are now looking forward to IADR 2015 which promises to be one of the busiest conferences ever. We hope to see many of you there and especially at our annual business meeting and reception which will be held on March 12 from 5:00-6:00 pm in Room 109.

Our group will go through a transition now as three new officers will join the Executive Committee. We will ensure this transition will be as smooth as possible. This also presents an opportunity to bring in new ideas and shape our group for the future.

With your approval, we have introduced a new award – the Cariology Research Group Science Award. It will come into effect with IADR 2016 and further announcements will be made.

As in previous newsletters, I would like to draw your attention to our website (<http://iadrcariologygroup.org>) and Facebook page (<https://www.facebook.com/ladrCariologyGroup>).

If you have any suggestions how to improve our group, business meetings and receptions then please do not hesitate to contact us. We are certainly looking forward to your feedback.

Finally, I wish you all a safe and productive remainder of 2015.

Frank Lippert

Secretary/Treasurer
IADR Cariology Research Group

IADR 2015 – Cariology Research Group – Symposia, Business Meeting/Reception and other Events

Below you will find a summary of Cariology Research Group related activities during IADR 2015. Please consult the program book for potential last minute changes.

Keynote address: Walter L. Siqueira (University of Western Ontario, Canada)
Salivary Proteomics for Diagnostic and Therapeutic in Cariology
Wednesday, March 11, 1:30 pm
Room 208

Symposia: Micro-invasive Dentistry - From Evidence to Dental Practice
Sponsored by: Evidence-based Dentistry Network and Cariology Research
Organizer(s): Falk Schwendicke (Charite University, Berlin, Germany) and Lyndie Foster Page (University of Otago, Dunedin, New Zealand)
Wednesday, March 11, 3:15 pm – 4:45 pm
Room 104

Applying Public Health Lessons to Issues in Oral Health
Sponsored by: Behavioral, Epidemiologic, and Health Services Research and Cariology Research
Organizer: Ananda Dasanayake (New York University, New York City, USA)
Thursday, March 12, 8:00 am – 9:30 am
Room 101

Why Caries Is Not a Health Care Global Priority?
Sponsored by: Cariology Research and Clinical and Translational Science Network
Organizer: Alexandre Vieira (University of Pittsburgh, Pennsylvania, United States)
Thursday, March 12, 10:45 am – 12:15 pm
Room 206

Atraumatic Restorative Treatment: 20 Years Since First IADR symposium
Sponsored by: Cariology Research
Organizer(s): Ana Acevedo (Universidad Central de Venezuela) and Rita Villena-Sarmiento (San Martin de Porres University, Peru)
Saturday, March 14, 8:00 am – 9:30 am
Room 101

Biofilm Management, Not Extermination, as the Key to Caries Prevention
Sponsored by: Cariology Research, Clinical and Translational Science Network, Microbiology/Immunology
Organizer: Bennett Amaechi (University of Texas Health Science Center at San Antonio, USA)
Saturday, March 14, 10:45 am – 12:15 pm
Room 207

Hands-on Workshops: E-dentistry and Teledentistry Applications: International Perspectives
Sponsored by: Cariology Group
Organizers/Chairs: Chair: Nicolas Giraudeau (University of Montpellier, France); Rodrigo Mariño (University of Melbourne, Australia)
Thursday, March 12, 10:45 am – 12:15 pm
Room 205

Lunch & Learning: Role of Polyphosphates on Dental Caries and Erosion
Sponsored by: Cariology Group
Organizers/Hosts: Alberto C. Delbem; Juliano P. Pessan (both UNESP - São Paulo State University, Brazil)
Thursday, March 12, 12:30 pm – 1:45 pm
Hall A

Online Scientific Program/Itinerary Planner:
<https://15iags.abstractcentral.com/planner.jsp>

Oral Sessions:

Clinical and Epidemiological Studies
Wednesday, March 11, 1:30 pm – 3:00 pm
Room 207

Demineralization/Remineralization
Wednesday, March 11, 1:30 pm – 3:00 pm
Room 208

Fluoride and Ca-based Products
Wednesday, March 11, 3:15 pm – 4:30 pm
Room 208

Microbiological Studies/Biofilm
Wednesday, March 11, 3:15 pm – 4:30 pm
Room 207

Detection, Risk Assessment and Others
Thursday, March 12, 8:00 am – 9:30 am
Room 208

Microbiological Studies/Biofilm
Thursday, March 12, 8:00 am – 9:30 am
Room 207

Clinical and Epidemiological Studies
Thursday, March 12, 10:45 am – 12:15 pm
Room 207

Demineralization/Remineralization
Thursday, March 12, 10:45 am – 12:15 pm
Room 208

Erosion
Friday, March 13, 8:00 am – 9:30 am
Room 208

Detection, Risk Assessment and Others
Friday, March 13, 10:45 am – 12:15 pm
Room 208

Erosion

Saturday, March 14, 8:00 am – 9:30 am
Room 208

Microbiological Studies/Biofilm
Saturday, March 14, 10:45 am – 12:15 pm
Room 208

Poster Sessions:

Detection, Risk Assessment and Others
Thursday, March 12, 2:00 pm – 3:15 pm & 3:30 pm – 4:45 pm

Erosion
Thursday, March 12, 2:00 pm – 3:15 pm & 3:30 pm – 4:45 pm

Clinical and Epidemiological Studies
Friday, March 13, 2:00 pm – 3:15 pm & 3:30 pm – 4:45 pm

Fluoride and Ca-based Products
Friday, March 13, 2:00 pm – 3:15 pm & 3:30 pm – 4:45 pm

Microbiological Studies/Biofilm
Friday, March 13, 2:00 pm – 3:15 pm & 3:30 pm – 4:45 pm
Saturday, March 14, 2:00 pm – 3:15 pm & 3:30 pm – 4:45 pm

Demineralization/Remineralization
Saturday, March 14, 2:00 pm – 3:15 pm & 3:30 pm – 4:45 pm

Annual Business Meeting & Reception:

Thursday, March 12, 5:00 p.m. – 6:00 p.m.
Room 109

Post-IADR Symposium:

Beyond 1000ppm
Program & Registration details:
<https://www.eventbrite.co.uk/e/beyond-1000ppm-tickets-13088063751>
Sunday, March 15, 7:30 a.m. – 5:30 p.m.

Minutes of the 2014 IADR Cariology Research Group Business Meeting & Annual Reception

Thu (Jun26), 5.00-6:00pm
Conference Center
Cape Town, South Africa

A. Call to Order (Dr. Lippert)

The meeting was called to order at 5:00 p.m. by Secretary/Treasurer Frank Lippert, who chaired the meeting. Carlos Gonzalez-Cabezas (President), Anderson Hara (Immediate Past-President) and Esperanza Angeles Martinez-Mier (Primary Symposium/Lunch & Learn Organizer) completed the team of officers present. Marcelle Nascimento (President-Elect) could not attend. A total of 24 members were in attendance (based on sign-up sheet). Minutes of the 2014 AADR CRG Business Meeting in Charlotte, USA, previously distributed electronically (group's newsletter) to members, were unanimously approved.

B. President's Report (Dr. Hara)

Good afternoon and welcome everyone. Thank you for attending the business meeting of the CRG of the IADR.

In this last year the group has worked to organize the Cariology program of the AADR meeting in Charlotte, as well as this IADR meeting in Cape Town. I would like to thank our group program chairs, Stefania Martignon and Ben Amaechi; our symposium and L&L organizers, Carlos González-Cabezas and Angeles Martinez-Mier; and also the abstract reviewers. Summary of the content of the Charlotte meeting can be found in the last newsletter; and a more detailed report on the present meeting will be presented in Stefania's report. Financially, the group is in excellent shape.

As we had announced previously, the group was able to implement the Cariology Research Group Travel Award, supported by GABA, for the Cape Town meeting. The aim of this award is to support well-qualified researchers from lower middle income countries, or below, to attend and present at IADR meeting. We provide the awardees with a stipend of \$2500 to help with travel expenses. This is open for students as well as faculty members. They do need to plan to present a study, in oral format. More details of the award can be found online. I encourage you to disseminate it among your colleagues. Unfortunately, we had no eligible applicants. The reasons for this and what needs to be changed in order to better accomplish the objectives with this award can be discussed at the end of the meeting.

The group's website has been created, and we are also on Facebook. With both, we hope to improve the communication with our members and also to allow them to have a better interaction among themselves. I would like to thank Frank Lippert for all his efforts to make it happen. As mentioned previously, the successful use of these tools is dependent on your participation, therefore I encourage you to visit us and to provide constructive feedback.

Finally, in this meeting I end my term as President of the group. It has been an honor to serve in this capacity. I'll continue in the group for one more year, as past-president and Group Program Chair organizing the cariology program for the IADR meeting in Boston, in 2015. I would like to thank the members, as well as the former and present officers of the group for their constant support and guidance.

C. IADR Councilor's Report (Dr. Hara)

The IADR council met in June 24th, 2014, from 1-5pm. I attended as councilor representing our group. I would like to present a summary of the main topics discussed:

1. The new membership fee structure for the IADR was voted and approved. The proposed structure was presented in the last newsletter.

Current Dues Structure				Proposed Dues Structure		
Renew/Join IADR	2014	2015	2016	Renew/Join IADR	2015	2016
Payment of Dues	Tiered \$56/\$70/\$140	Tiered \$58/\$80/\$145	Tiered \$60/\$90/\$150	Payment of dues including one (1) Scientific Group/Network Membership	\$56/\$85/\$155	\$58/\$99/\$165
Add Group/Network Fees	Optional/Varied prices (\$4-\$69)	Optional/Varied prices (\$4-\$69)	Optional/Varied prices (\$4-\$69)	Add 2 nd Scientific Group/Network Fees	Option/Tiered \$7/\$12/\$20	Option/Tiered \$7/\$12/\$20

Estimated Group membership for 2015 vs 2014.

Table 2: Estimated Group/Network Membership for 2015 vs 2014

The IADR GHQ has estimated the 2015 Group/Network membership based on existing membership data and the number of abstracts programmed for each Group/Network in 2013.

Group/Network	2015 Estimated Members/Retired Members	2015 Estimated Students	2015 Total Members/Students	2014 Total Members/Students
Behavioral Science	704	270	974	547
Cariology	655	274	929	572
Clinical and Translational Science Network	114	68	182	154
Craniofacial Biology	361	237	598	275
Dental Anesthesiology	65	30	95	67
Dental Materials	1,703	607	2,310	1052
Diagnostic Sciences	142	71	214	146
Education Research	232	103	335	256
Evidence-based Dentistry Network	149	135	284	268

2. Membership trends for the last 10 years (2003-2013) were presented. Overall there was an increase in 5%:

- The Latin American Region has grown going from 5% in 2003 to 14% in 2013.
- The Asian Pacific Region has fluctuated and ended 2013 similar to 2003.
- The Africa Middle East had a record high of 7% of the membership in 2013.
- In order to compensate for the increase mentioned, there was a decrease on the membership percentage for the North American and Pan European Regions.
- Students represented 17% of the members in 2003 and this increased to 27% in 2013.
- These membership numbers seemed to be driven by the location of the meeting, the Barcelona and Foz do Iguacu meetings are good example. However, the increases to membership are not sustained long term.

3. Results of the membership survey conducted by the IADR were presented. The main points were:

- Responses from 1268 active members (13%) and 223 lapsed members (4%).
- The overall satisfaction with IADR was considered fairly strong.
- Scientific groups are seen as important, but not many members are part of them.
- Cost is an issue.
- Most important mission of the IADR: to elevate the level of science in the field; which was also considered the least important mission.
- Main values for the members: discounts on registration, JDR online subscription, network of research.

4. Budget: there was a surplus for 2013 of \$479k; and a deficit of \$265k is expected for 2014. This follows the trend of surplus for meetings in the US and deficit for meetings outside US.

5. Knowledge community is now available for members, free of charge. There, you can find some of the recorded presentations from this and previous meetings.

6. IADR academy session was held early this week (Monday). The objective is to provide training to new investigators. For those that have interest and could not attend, the presentations were recorded and will be available in the IADR knowledge community database.

7. In response to the concerns about dental amalgam restorations due to the presence of mercury, the IADR has worked together with the FDI to make appropriate interventions as needed to support the availability of amalgam as a public health measure. The IADR/FDI strategy is a 'phase-down' of dental amalgam, instead of 'phase-out'; and this strategy is supported by the development of new dental materials as well as the preventive measures that may reduce the need for restorations.

8. New vice-president elected was announced and it is Dr. Jukka Meurman.

9. Vancouver, Canada was approved as the new location for the IADR/AADR meeting of 2019. This meeting will be held in June, 2019 (instead of earlier in the year as usual, because of the weather).

D. IADR Group Program Chair's Report (Dr. Martignon)

For the 2014 AADR/CADR Annual Meeting, the Cariology Research Group received a total of 125 abstracts:

- 115 were accepted

- 10 were rejected

Of those accepted: - 38 were presented as oral

- 77 were presented as posters

For the 2014 IADR/AMER General Session, the Cariology Research Group received a total of 165 abstracts:

- 8 were rejected

- 157 were accepted. Of those accepted: - 34 as oral presentations

- 123 as poster presentations

Review Structure

Overall GPC: Stefania Martignon and Ben Amaechi

#	Abstract Subsection	Lead reviewer		Other Reviewers	
		Name	E-mail	Name	E-mail
1	Demineralization/ Remineralization	Bennett Amaechi	amaechi@uthscsa.edu	Angeles Martinez-Mier	esmartin@iu.edu
				Paul Anderson	p.anderson@qmul.ac.uk
2	Dental Erosion	Anderson Hara	ahara@iu.edu	Annette Wiegand	annette.wiegand@zzm.uzh.ch
				Taís Scaramucci	tscaramu@iu.edu
3	Fluoride and Calcium- based products	Anderson Hara	ahara@iu.edu	Nathan Cochrane	n.cochrane@unimelb.edu.au
				Burton Schmuck	burton.schmuck@nist.gov
4	Caries detection, Risk assessment & Others	Stefania Martignon	smartignon@gmail.com	Christopher Longbottom	c.longbottom@dundee.ac.uk
				Janja Jan	janja.jan@MF.UNI-LJ.SI

6	Clinical and Epidemiological studies	Stefania Martignon	smartignon@gmail.com	Fausto Mendes	fmendes@usp.br
				Chris Deery	C.Deery@sheffield.ac.uk

Keynote Speaker

Saturday, June 28, 2014: Dr. Ana Carolina Magalhães

Title: "New Marketed and Experimental Products for Tooth Erosion Protection"

E. Symposium/Lunch & Learn Report (Dr. Martinez-Mier)

For the IADR meeting in Cape Town, the Cariology group received three symposium proposals on: Leaving caries – unacceptable, inevitable, or desirable?, Global Trends of Diagnostics, Risk Assessment and Innovative Strategies for ECC Prevention, and ICDAS - ICCMS™ Caries Prevention, Management and Inequalities; we also received a HOW proposal, and a request to cosponsor the following symposium: Tissue Engineering Strategies for Regenerative Endodontics. After careful consideration, our group decided to support all three symposium proposals received. All of them were accepted for presentation at the meeting, but the How to Implement a ‘Heal & Seal’ Attitude in Dental School HOW was withdrawn from presentation at the meeting.

F. Secretary/Treasurer’s Report (Dr. Lippert)

I. The membership report was presented, comparing the number of current members with the last 2 years, as well as the distribution of members according to the type of membership and countries. Numbers are shown in the tables below.

May 06 th , 2014	AADR	IADR	Total
Retired/Life/Complimentary Members	7	3	10
Members	107	246	353
Student Members	63	144	207
Total	177	393	570

Mar 21 st , 2013	AADR	IADR	Total
Life Members	3	5	8
Members	107	239	346
Student Members	74	169	243
Total	184	413	597

Jun 21 st , 2012	AADR	IADR	Total
Life Members	2	5	7
Members	121	287	408
Student Members	62	299	361
Total	185	591	776

2. The financial report was also presented, mentioning that the group continues financially sound. The amount of money in the group's bank account was shown (see below). The amount of money donated by sponsors to cover the expenses of the IADR 2014 meeting was as follows:

- Basil Bibby Award US\$ 2,500.00, donated by Unilever (*received*)
- CRG reception US\$ 1,000.00, donated by Colgate-Palmolive (*to be received*)

Accounts	Balance
Checking	\$ 17,023.64*
Savings	\$ 40,224.68
Total	\$ 57,248.32

*incl. Basil Bibby award expenses, incl. QI membership dues

G) Presentation of Basil G. Bibby Award (Dr. Hara; Dr. Schaefer, Unilever)

The Basil G. Bibby Award recipient of this year was Livia Tenuta from Piracicaba Dental School, University of Campinas (UNICAMP), Piracicaba, SP, Brazil. Congratulations to her for her outstanding achievements! Special thanks to Unilever for sponsoring this Award.

As Dr. Tenuta was indisposed, her long-term mentor, Prof. Jaime Cury, received the award in her name.

Fig 1. Jaime Cury (left) receives the Basil Bibby Award 2014 for Livia Tenuta (not present) from Fred Schaefer (Unilever representative, right).

H) Recognition of Past President (Dr. Hara)

The Past-President, Stefania Martignon, was recognized for her long-term service to the Cariology Research Group with a plaque, handed to her by the president, Anderson Hara:

Fig. 2. Anderson Hara (President, left) honors Stefania Martignon (Past-President, right) for her dedication to the Cariology Research Group.

I. Group Elections

Dr. Marcelle Nascimento was voted into the Executive Office as President-elect. Her term has started in June 2014.

We will shortly ask for nominations for the following positions within our group:

- a) President-Elect
- b) Primary Symposium/Lunch & Learn Organizer
- c) Secretary/Treasurer

J. New President's Speech (Dr. Gonzalez-Cabezas)

Dear members,

I would like to thank you for electing me as the president of the group. For those of you who know me better, you know that although I am not originally from Venezuela, I lived there for a significant portion of my younger years and it is very close to my heart. Well, I promise to be brief tonight and not to give you a typical Venezuelan's President Speech.

I have had the pleasure to work with this research group on and off since 2002, mostly as councilor representative and abstract reviewer and more recently as symposium and lunch and learning organizer. This last year as president-elect, and now I will start as President.

Because of all these years with the group, I'm very familiar with the missions and operations of the group. I have seen the improvement in the group's operation. I have also seen the expansion of the group's areas of influence. I will work hard to continue leading and supporting these group's activities.

I will continue working with the group promoting research in Cariology and Dental Erosion, organizing meetings with high scientific quality and promoting research networking. During the last few years, the group has put a significant effort to enhance the quality of the research being presented at the annual meeting. I will personally strengthen this effort since I personally think this is essential for the future of the group. We cannot do this alone. We need your support and effort to accomplish this goal.

Increasing membership and improving service will continue to be an essential activity of the group. Significant improvements in this area have occurred in recent years, so my mission is mostly to sustain this trend.

Lastly, the finances of our group are very healthy and I hope to keep it this way. During the last few years, the group has been able to obtain significant external support for most activities while keeping expenses at a reasonable level. All of this has allowed us to keep our balance sheets in the black, letting us build a reserve for future years and explore new activities. I encourage you to share your ideas for improvement of the quality of research supported by the group. We will certainly consider them and work hard for their implementation.

Thank you,
Carlos Gonzalez

K. New/Current Officers

With the results of last year's elections, the current officers of the CRG group are as follow:

IADR Cariology Research Group - 2014-2015 Officers

President/First Group Program Chair

Carlos González-Cabezas

Dept. Cariology, Restorative Sciences & Endodontics

University of Michigan School of Dentistry

1011 N. University B305, Ann Arbor, MI 48109-1078, USA

Tel: 1-734-763-3391

E-mail: carlosgc@umich.edu

President-Elect/Secondary Symposium/Lunch & Learn Organizer

Marcelle Nascimento

Department of Restorative Dental Sciences

College of Dentistry

University of Florida

1395 Center Dr., D9-6

PO Box 100415

Gainesville, FL 32610-0415, USA

Tel: 352-273-5858

Email: mnascimento@dental.ufl.edu

Immediate Past-President/First Group Program Chair

Anderson T. Hara

Department of Preventive and Community Dentistry

Indiana University School of Dentistry
 Oral Health Research Institute
 415 Lansing St.
 Indianapolis, IN 46202, USA
 Tel: (317) 278-0577
 Fax: (317) 274-5425
 E-mail: ahara@iu.edu

Primary Symposium/Lunch & Learn Organizer
 Esperanza Angeles Martinez Mier
 Department of Preventive and Community Dentistry
 Indiana University School of Dentistry
 Oral Health Research Institute
 415 Lansing St.
 Indianapolis, IN 46202, USA
 Tel: (317) 274-8822
 Fax: (317) 274-5425
 E-mail: esmartin@iu.edu

Secretary/Treasurer
 Frank Lippert
